## HERCULES EQUIPMENT - TRAILERS FOR MINING APPLICATIONS – up to 450 Tons

**HERCULES MANUFACTURES MANY UNIQUE CUSTOM DESIGNS OF HEAVY DUTY TRAILERS**  
– call for information about a design made specifically for your application.

**Rear Loading Design with Dual Rear Axle and Towing Attachment**

**Hercules Equipment** off-highway lowbed trailers are true workhorses in transporting heavy equipment on sites. These trailers, from 50 . 450 tons any up to 24q wide, are cost-effectively manufactured to perform in rugged conditions. Available designs incorporate either rear-loading or front-loading capabilities.

Our folding gooseneck trailer is a super heavy duty front loading trailer with an extra-long and gentle ramp to safely load equipment with high points of gravity such as tracked drills and mining shovels. This trailer features a one-panel fingertip control and self-leveling compensation. It loads and unloads in minutes.

**10448 McEachern Street, Maple Ridge, British Columbia, Canada V2W 0H8**
